COMPANY OVERVIEW

Golnoor

Light up Your Life

Engineering Lighting Since 1993

WHO WE ARE

Golnoor Company is a leading manufacturer of professional LED lighting solutions in the Middle East. Since 1993, we have combined engineering expertise, integrated manufacturing and continuous innovation to develop reliable, energy-efficient lighting solutions for infrastructure, industrial, urban and sports projects across international markets.

WHY GOLNOOR

- **+30 years** of engineering and manufacturing experience
- **Integrated manufacturing**, from engineering to quality assurance
- **In-house R&D** supported by an accredited testing laboratory
- Products developed in accordance with international standards
- **Exported to more than 30 countries**
- A trusted supplier for **large-scale lighting projects**

LIGHTING DESIGN SERVICES

DIALux Silver Member

Golnoor's lighting design team delivers lighting design and engineering services for infrastructure, industrial, sports and architectural projects. Combining engineering expertise, project experience and advanced simulation tools, including DIALux, we develop lighting solutions that optimize performance, enhance visual comfort and comply with international lighting standards.

- DIALux Plug-in
- IES & LDT Files
- BIM Objects
- Product Database

Trusted by lighting designers worldwide.

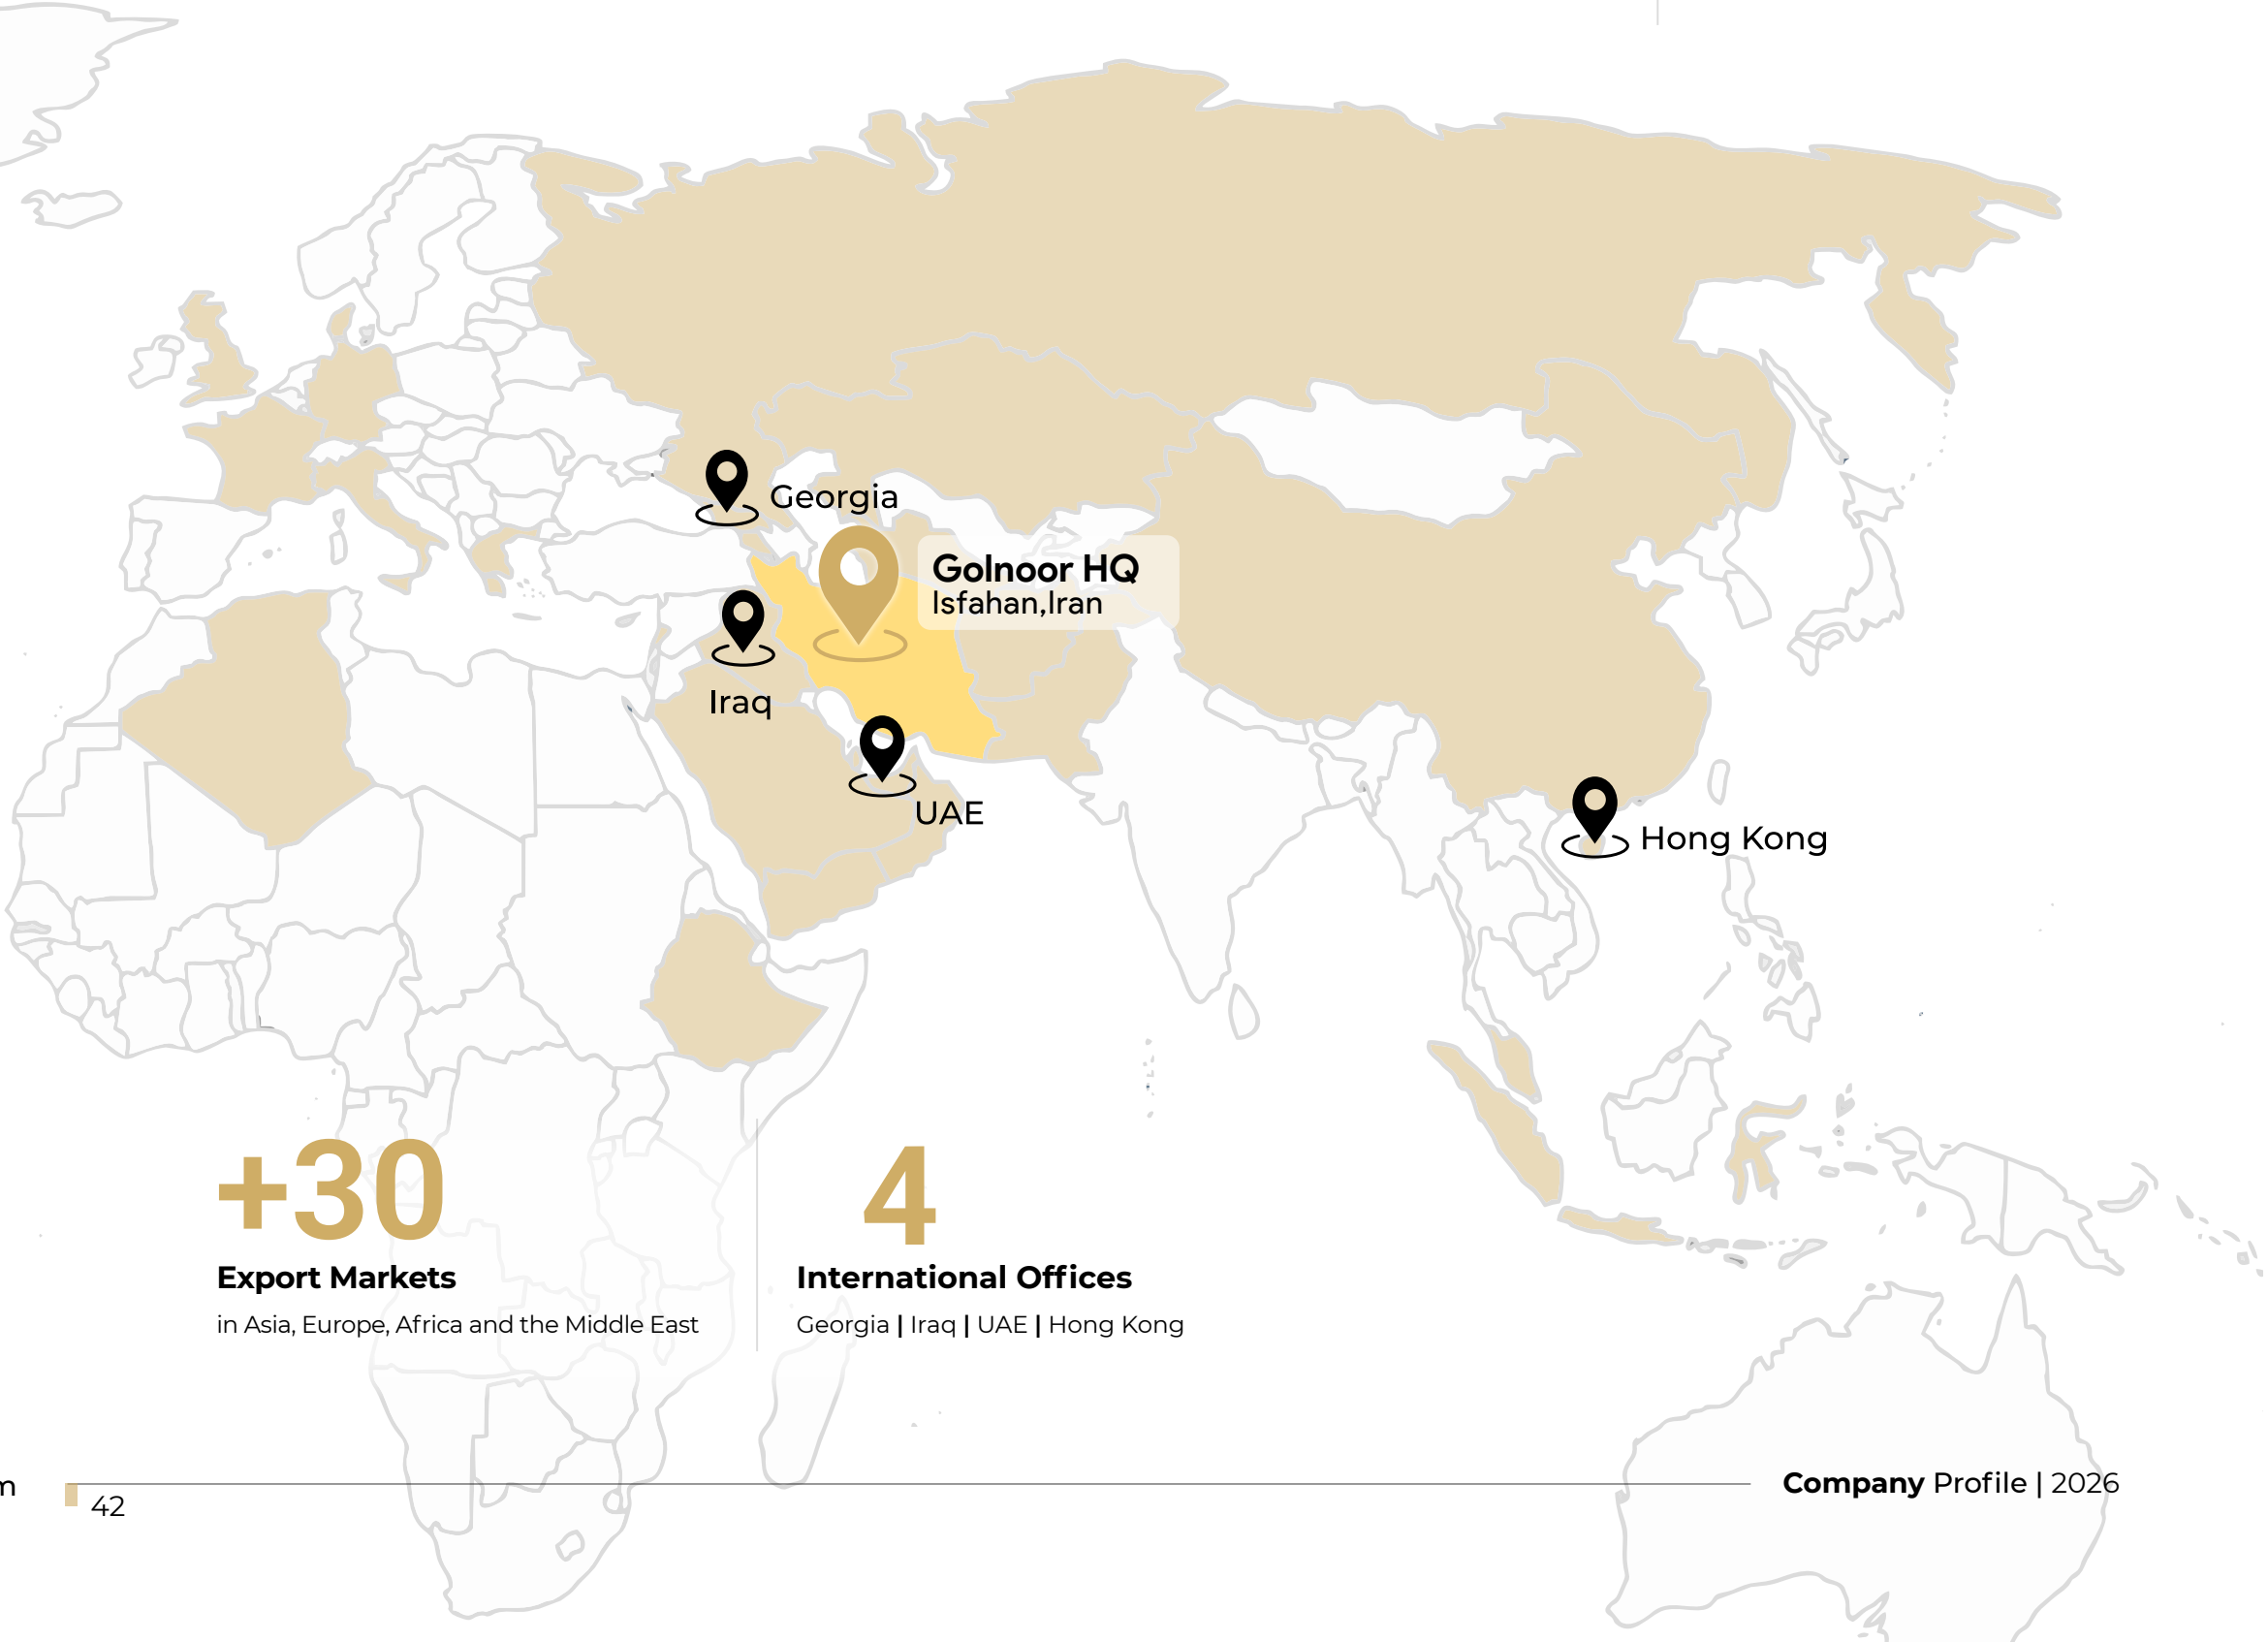

Golnoor GLOBAL PRESENCE

Light up Your Life

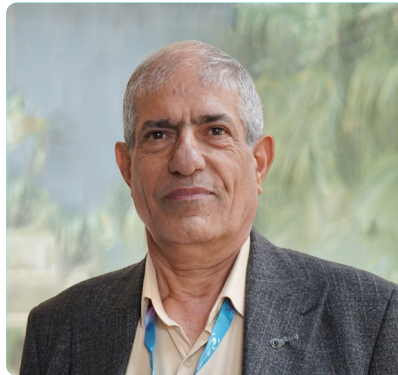

Delivering professional lighting solutions to customers in more than **30 countries** through an expanding international network.

- Export Markets
